

DISCOVER PYRAMID ENERGY POWER

Cheops Pyramid Generator

Kirlian Photograph indicating Presence of Pyramid Energy Flowing From our Cheops Pyramid Generator

The great pyramid of Cheops, the 7th and only remaining wonder of the world, sits majestically on 13 square acres of the plain of Giza ten miles outside of Cairo, Egypt. The Great Pyramid is undeniably the greatest structure on earth. It is the oldest, largest, heaviest, most accurately positioned and most precisely made ancient instrument known to humans. It contains 2,600,000 stones cut within optical precision to less than .01 hundredth inch of tolerance. These granite and limestone monsters weigh from 2 to 70 tons each and were brought from distances as great as 500 miles from where they were quarried. The great Cheops pyramid is a marvel of mathematical design and accuracy. It is located at the exact center of the land masses of the earth and is in perfect alignment with magnetic north, level to the earth within one-half inch over its more than 13 acres of base. It contains intricate and precisely angled passages and air vents built into the design. The universal mathematical concepts of Pi and Phi are integral to its proportions. The Pyramid is a great mystery indeed. Who built this colossal device? We can only speculate . . . the Egyptians, or perhaps the advanced Atlanteans of whom Plato and super-psychic Edgar Cayce spoke. Perhaps Erich von Daniken's "Gods From Outer Space". In any case, Cheops Pyramid was built by super-intelligence with equally super technology. We have yet to learn the many wonders it performs.

But thanks to the recent genius efforts of G. Pat Flannagan (author of the best seller "Pyramid Power"), we have rediscovered Pyramid Energy. The pyramid is a geometric focusing lens of cosmic energy. The pyramid acts as a resonating micro-wave antenna which is able to focus energies of the cosmos like a lens. This focused energy affects the molecules or crystal structures of matter placed within this focused energy. Some even equate this focused energy to that of the laser beam, however having a different frequency and strength effect.

Pyramid energy has marvelous properties. It does just what most of us want it to do by helping in a positive manner people, plants, and things. It energizes and preserves. Pyramid energy promotes relaxation, relieves physical and mental stress, prevents growth of harmful bacteria and molds, energizes water, reduces harshness of commercial marijuana, preserves food, mellows coffee, and rapidly matures wine thus making it smoother. It increases psychic ability (ESP), quickens and deepens meditation and encourages inspiration. It helps activate Prana, Ka, Chi, and other named life forces.

FOR PLANTS it cuts seed-germination time by as much as one-third, strengthens sickly plants overnight, stimulates rapid healthy growth and increases the yield of flowers and fruit by as much as 35% and repels insect pests. It cures and preserves by dehydration (THC is destroyed by moisture). In all probability it will increase the quantity and quality of marijuana resin (THC) with plants that have been watered with pyramid energized water.

All our pyramid products are made of the best materials available and have been expertly designed to the exact proportions of the Great Pyramid of Cheops.

This book is copyrighted, but if you want to xerox a copy for your friend who can't afford a dollar—it's Ok. Turn him on to it. I have spent the time and money to register this book with the Registrar of Copyrights, who is issuing a Library of Congress Card Catalogue Number, only because a few of my friends have not got the message of respecting another person's property, and I'm really afraid that they would try to rip off \$1.95 or 2.95 of your money for the same information I have provided for only one dollar.

The profits, if any, will go toward establishing a marihuana growing community near San Diego, California, where the main goal will be to provide a good way of living for the people merely by realizing a zero or minimum profit for the company.

We all realize that marihuana will be legalized in a few years, and so does the American Tobacco Co., R.J. Reynolds, and other big companies. In case you didn't realize, Zig Zag papers are distributed solely by the United States Tobacco Co.

Marihuana actually belongs to the people; let's keep it that way. I understand that there is a similar type organization forming in San Francisco; I will be more than glad to donate a considerable portion of my profits, if any, to their cause;

"Have you heard that we're turned on to the same world?!...belong to the same world! Life's ours for the making, eternity is waiting.....waiting for you and me."
